

Camp invention®

A program of Invent Now®

UNLEASHING CREATIVE GENIUS... ONE CHILD AT A TIME

This summer, invest in the skills that will help your child achieve his or her full potential throughout the school year. Nonprofit Invent Now's premier program, Camp Invention, is a weeklong adventure in science creativity. Led by qualified educators, this exciting program is being hosted by **Loomis Math, Science, and Technology Academy** this summer for children **entering grades one through six**. The Camp Invention program is a unique opportunity for your child to experience hands-on learning through FUN activities that will stay with them for years to come.

"The other day, I heard my son say to his sister, 'There's no such thing as failure, and there's more than one way to solve a problem.' I nearly fell on the floor. Thank you, Invent Now!"

– Camp Invention Parent

This year's INNOVATE program features:

Hatched™

The Hatched online community has disappeared. Be a part of the tribe that saves its avatars by rebuilding the marketplace in this extraordinary virtual world.

Power'd™

It's alive! In a secret lab, assemble your own motorized creature and bring it to life while helping a mysterious scientist harness the power of nature.

SMART: Science, Math & Art™

Explore the Pattern Kingdom to uncover the connection between soap bubbles, honeycombs, and lightning bolts. Discover math without numbers to beautify the kingdom!

Game On: Power Play™

Practice teamwork, coordination, and creative problem-solving skills as we explore new games and add our own twist to create high-energy challenges!

I Can Invent: Edison's Workshop™

Using real tools, take apart a broken appliance and upcycle its gears and gadgets to create ball-rolling and Rube Goldberg-type machines!

Camp invention®

A program of Invent Now®

Dear Parent:

This summer, Loomis Math, Science, and Technology Academy is proud to offer the children in our community an exciting week of hands-on FUN at the Camp Invention program! Led by qualified local educators, this unique program challenges children to think creatively about real-world problems and work as a team to collectively identify solutions.

An ideal solution for parents seeking extended school-year learning through summer fun, the Camp Invention program is a safe, creative outlet for children in grades one through six to explore the unknown, tinker with ideas, and satisfy their natural sense of curiosity – teaching them how to think like leaders and entrepreneurs.

This year's INNOVATE program features:

Hatched™

Power'd™

SMArt: Science, Math & Art™

Game On: Power Play™!

I Can Invent: Edison's Workshop™

Loomis, Math, Science, and Technology Academy

July 25 - 29, 2011

9:00am to 3:30pm

Children will participate in all five modules each day of the program. As a proponent of educational enrichment, I am thrilled to direct a program of this caliber in our community. Spaces are limited, so register today!

Sincerely,

Chris Dillard, Director
