

August 15, 2019

Dear Parents and Community Members:

Saginaw Public Schools is launching a new 3-5 Year Strategic/Transformation Plan. The purpose of this plan is to assist in developing new goals and strategies that will enable the school system to become one of the premier systems in the state. It will also allow Saginaw Public Schools to offer the best K-12 educational experience possible, given the resources.

The strategic/transformation planning process is designed to produce approximately 5 goals to be accomplished over a 3 to 5 year period. The plan uses data, along with the feedback of staff, students and community members to help identify priority goals that will help make the district perform at its highest levels.

Your ideas about the strengths of Saginaw Public Schools along with your opinions concerning where there is opportunity for improvement, barriers to implementation, ideas for a vision are very important. Therefore, you are invited to provide input in either one of the scheduled face-to-face input sessions or electronically.

Monday September 16, 2019

- A. 1st Community/Parent Group Session-6:00 P.M.-7:00 P.M.**
