

July, 2017

Dear Parents,

It is with great pride that we welcome you back for the 2017-18 School Year at Saginaw Public Schools. Staff members are enthusiastic about working with students and community members on moving our district forward.

We are excited to offer your son and/or daughter exploratory science programs that are designed to provide active learning situations and higher-order thinking skills development involving the systematic study of the applications of knowledge, creativity, and resources to solve problems.

The most important aspect of dealing with the tools, materials and processes used in science education is **SAFETY**. Building principals will ensure that all students must wear safety glasses when required. Each student will be given his or her own pair of safety glasses to wear in class for projects requiring eye protection.

Should you have any questions regarding this information, please contact your building principal.

Sincerely,

Mr. Nathaniel McClain
Superintendent
